# How to create a simple pitch deck

This is a placeholder guide. Your Customer Success Manager will replace it with the full version.

### 1. Keep it to eight slides

Cover, who we are, the problem, how we work, results, terms, why us, next steps.

### 2. One idea per slide

A headline of eight words or fewer, then no more than three bullet points.

### 3. Lead with results

Real placements, real timelines. Numbers beat adjectives.

### 4. Show your process

Prospects buy certainty. A step-by-step timeline reassures them.

### 5. Make the terms simple

Summarise the options; the detail lives in your terms of business.

### 6. Export as PDF

Upload the PDF on the ’Your pitch deck’ card. We present your business exactly as you would.
